DO YOU KNOW YOUR HVAC VITALS™?

Has your contractor left you with system faults?

Studies from the DoE have shown that 9/10 home HVAC systems have at least 1 system fault.

System faults result in:

- Increased risk of failure
- Higher energy bills
- Shorter equipment lifespan
- Uncomfortable temperatures

Don't get scammed!

Receive an outrageous quote? Ask your HVAC Contractor for your measureQuick Vitals™ Report.

"The HVAC Vitals™ gave me confidence in my decision to repair my system vs. replace it."

~ Christine Rowe, Ohio Homeowner

What is measureQuick?

measureQuick is the HVAC industry's leading diagnostics application used by HVAC professionals who value transparency, consistency & quality craftsmanship.

During installation, repairs, or maintenance, a **measureQuick Contractor** will use cutting-edge technology to produce your HVAC Vitals™ - the 'bigger picture' of your HVAC system.

Homes with a HVAC Vitals™ Score of 95% experience superior comfort, energy efficiency, and last far longer.

Typical Contractor	measureQuick Contractor
Doesn't follow a process and overlooks or misdiagnoses faults	Follows standardized software workflows to identify EVERY possible system fault
Doesn't leverage connected tools	Equipped with wireless pro-grade tools
Missing data for adequate diagnostics	Performs hundreds of diagnostics in real-time
Unable to compare historic reports	Maintains your system through year-by-year report comparisons
Offers a hastily prepared & incomplete checklist	Produces a 3rd-party, in-depth system health report
Provides opinions & high-pressure sales tactics	Provides data-driven recommendations for discussion
